

### **British Values Statement – Performing Arts**

Here in the Performing Arts department we promote British Values by celebrating our diverse and vibrant population within school. We engage and mould the young minds of today to thrive for success. Our curriculum embraces all cultures and encourages students to observe and reflect on the many different options, faiths and beliefs.

We embrace and promote tolerance, encouraging students to open their minds and enrich the collaborative approach that the performing arts offers. We celebrate further the achievements of all and honour their strengths and areas of development.

Also within the Performing Arts we encourage freedom of speech with the development of arguing for and against, accelerating students debating skills with openness to honesty and respect.
