

Career based Home Learning Activities

At school we use a Careers platform called Start. We use this to help guide the students in making informed decisions about their future pathways and careers.

All students have access to this platform by accessing the website:

Careers – Home Learning Activities for Students

During the school closure, we would like you child to complete a series of engaging activities on our careers platform designed to inspire and inform them about their future.

In addition to their academic studies, it's so important that students are continually encouraged to think about what career opportunities are out there, how to get there and what they'll need to prepare themselves for the journey.

These activities will help. They include videos, quizzes and reflective learning on:

- Selling yourself - the importance of a personal brand
- Learning from the jobs people in their family have done
- Understanding the importance of technology and how it's changing the workplace

New activities will keep being added, so please encourage your child to work through the tasks and check back on the site regularly.

Go to: www.startprofile.com/homelearning

Please see the information below to get started with these activities!

Let's Get Started!

Step 1: Go to  www.startprofile.com/homelearning

Click the link above and you'll be taken to the Home Learning Activities landing page.

Step 2: Choose an Activity

We suggest working through the activities in order. When you're ready, simply click **'Start Activity'**. You'll need to login or register. If you don't complete the activity there and then, that's fine. Just come back later and click **'Resume Activity'**.

Step 3: Complete an Activity

When you complete an activity, you have two options. Either follow the on-screen instructions to go and explore other areas of Start, or begin the next activity.

And finally, you can always find your next activity in the 'My Activities' box at the top of your Profile page.

Good luck!
